Profile

My name's Toan, and I graduated from FPT Polytechnic Danang in 2023. As an ambitious web developer, I have accumulated over a year of practical experience in real-world projects. I am deeply inspired by the belief that "IT is the king of professions," an idea fueled by success stories like that of the "mechanical brother born in '96." With a clear aim to rise to the position of Senior Frontend Developer within the next four years, I am eager to tackle new challenges. I am committed to employing my skills in web development to create innovative and efficient web design solutions that exceed expectations.

Professional Experience

2022 Oct – 2024 Apr
Da Nang, Viet Nam

Front-End Developer

NAPA Global
